If you don't want to spend any money don't read this one because you will be forced back to to get the others. You have been warned.=====From the mind of indie sci-fi author Mark Whiteway who brought you other sci-fi books such as The Arc of the Universe comes the first book of six within the critically acclaimed sci-fi collection, the Lodestone Series.Blending fascinating world-building with a strong character-driven

storyline, this book sits amongst modern sci-fi classics, and true fans looking for a sci-fi book for adults will not be disappointed. With hundreds of verified reviews on heaping praise upon indie author Whiteways literary style, this is one sci fi book you dont want to miss out on.=====On the planet Kelanni, life is cheap. With the aid of the fearsome "Keltar" enforcers in their flying cloaks, a ruthless invader is forcing the native population to mine the colloquially named "lodestone" - a substance from another universe with infinitely destructive power. The only ones who can stop him are a tiny girl with a fiery disposition, a former Keltar, a failed revolutionary, a musician and the mysterious creature Boxx, who seems to speak only in riddles...Pursued by Keltar, the party will encounter bizarre creatures, ancient technologies and terrifying dangers. Finally, they must seek to cross a massive storm barrier in order to reach the other side of their world, where a world-shaking revelation awaits.
